

1 WHAT'S THE PRICE?

"Is that the total I write on my check?"

2 WHERE DO THEY GO?

"What is the address of the crematory?"

3 HOW DO I KNOW?

What's your process and how can you prove who's in the urn?

Many funeral homes and cremation services will bait you by quoting a low price only to tack on additional fees, and undisclosed, third-party charges to the contract for services later.

When given a quote for services, always ask, **“Is that the number I write on my check?”** This will bring to light, most hidden charges.

At Oklahoma City Cremation the price we advertise or share with you over the phone, is the total price you'll pay.

Most funeral homes don't have a crematory and must outsource this work to a cremation warehouse. **Ask for the physical address of their crematory and write it down.** You'll soon see that although the prices vary greatly, the actual crematory doing the work does not. This technique will help you find the lowest price within this group.

Our crematory is located at our main location:

910 NW 79th in Oklahoma City and is open for you to inspect in person or on-line at

**OKLAHOMA CITY
CREMATION.COM**

(405) 608-4141

It's scary but true, that even if they do have a crematory, most funeral homes do not have a detailed and well articulated cremation process that they can easily share with you.

Scarier still, is the fact that if you asked, **“Can you prove who is in the urn?”** ...they can't.

Our Worry Free Cremation™ process includes a Positive ID Protocol™ and incorporates a HD Video Oversight™ technology giving us the unique ability to verify each cremation we preform. This is part of what makes Oklahoma City Cremation the most trusted crematory in Oklahoma.
